

# At the Club (October)

An occasional series of words and pictures featuring the Hoddesdon Model and Railway Club.

As the name implies it is the Hoddesdon MODEL & Railway Club and the area pictured is to become the roadway for those of a radio control vehicle persuasion. And the first traffic cone has appeared!!

Old track removed and track relaying is to commence soon on the 'OO' gauge layout in the club house. While this is happening someone is delegated official tea drinker!

The shop fronts have been removed (circled area) and this gives a chance to see clearly what is inside.

Please note; cup of tea, a staple diet of railway modellers
